

1089

Hello, I am writing to you as a Special Education Teacher who both works with students who have benefitted from ABA services, and has friends with children who rely on programs which include ABA. The vulnerability of both my students and friends children is something I take seriously and worry about constantly. My name is Tracy Sanford. I live in Stratford CT, and work in Milford, CT. I strongly support this bill because it can only benefit the lives of this population, and the ability for them to access medicaid and insurance is important.

I am in favor of SB 1089 sections 23-29, please pass this bill.

Thank you,

Tracy Sanford
